The Sumitomo Trust & Banking Co., Ltd.

Summary of Status Report on the Plan for Restoring Sound Management

1. Summary of Results for FY2001 of Sumitomo Trust and Banking (the Bank)

The Bank's Adjusted Net Business Profit, Net Operating Income, and Net Income for the fiscal year 2001 (FY2001) resulted in 150.2 billion yen, -67.6 billion yen, and -42.2 billion yen, respectively.

The comparison of the actual results with the original Plan for Restoring Sound Management (the Plan) shows an increase of 10.2 billion yen (7.3%) in Adjusted Net Business Profit, but decreases of 120.6 billion yen (227.5%) in Net Operating Income and 72.2 billion yen (240.7%) in Net Income. ROE (Adjusted Net Business Profit / Shareholders' Equity) was 20.43%, 2.26% higher than 18.17% of the Plan.

Total credit costs, i.e., the sum of credit costs in Banking A/C, Trust A/C, and the net transfer to general reserve, resulted in 105.4 billion yen (Banking A/C credit costs: 75.2 billion yen; Trust A/C credit costs: 23.9 billion yen; Net transfer to general reserve: 6.2 billion yen), 25.4 billion yen above the Plan.

The total credit costs were higher than those planned in the Plan, mainly due to proactive write-off, reclassification of certain borrowers for future write-off and the change of classification rule for Substandard Loans. However, the total credit costs declined dramatically compared with those of FY2000, and were less than the Adjusted Net Business Profit. Net gains/losses on stocks resulted in a net loss of 110.1 billion yen, mainly due to 108.9 billion yen devaluation of stocks. Stocks with values at 50% or less of their costs, as well as those with values more than 50% but less than 70% of their costs having no possibility of price recovery, are subject to the devaluation (values being determined on the basis of 1-month average of their daily closing prices during March 2002).

Adjusted Net Business Profit increased by 6.0 billion yen (4.2%) in comparison with FY2000. This is attributable to 1.6 billion yen increase in Adjusted Gross Business Profit, coupled with 4.4 billion yen reduction in general and administrative expenses through a further rationalization.

The increase in Adjusted Gross Business Profit is mainly on account of the boosted net gains on Net Interest Income in accordance with sharp falls of dollar and euro short-term interest rates, despite the decrease in fees from Loan Trust and Jointly-Operated Money Trust. Trust fees from pension asset management and securities processing services,

which are classified as fee income in trust and custody businesses, were kept at the same level with FY2000, in spite of the downward stock market. Fee income from real estate brokerage, stock transfer agency, and sales of investment trusts, which are classified as fees and commissions in banking businesses, had a steady improvement.

(BIS Capital Adequacy Ratio and Net Unrealized Gains/Losses of Securities)

BIS Capital Adequacy Ratio equaled 10.86%, decreasing by 0.55% in comparison with FY2000. Retained Earnings resulted in 145.5 billion yen, decreasing by 28.5 billion yen.

Total Net Unrealized Losses on Securities (parent company only) resulted in 93.4 billion yen, mainly on account of net losses on stocks.

Considering the decrease in Shareholders' Equity due to Net Loss and Net Unrealized Losses of Other Investment Securities, the Bank, for the purpose of improving its financial status, sold its Tokyo Marunouchi Building by securitization (Retained Earnings increased by about 20 billion yen mainly through transfer from Revaluation Reserve for Land (Net Tax) in Shareholders' Equity), and liquidated 173.8 billion yen of cross-shareholding. Dividends were reduced by 2.00 yen per share to keep retained earnings.

The Bank will enhance its financial strength and its profitability through further unwinding of its cross-shareholding, as the Bank's one of top priority issues, and through additional cost-reduction measures.

2. Summary of Status of the Plan

(1) Summary of Management Restructuring

<Human Resource Management>

- The number of eligible employees for "Employments Contracts with Specified Individual Assignments" entered into between the heads of Business Groups and employees was extended to motivate more employees.

<Organization Structure>

- A flatter organization system, as well as appointment of higher positions to younger employees, was implemented for Consumer and Corporate Finance Group in order to pursue swift decision-making and utilization of resources. (January 2002)
- For better management of profitability and responsibility, Consumer and Corporate Finance Group and Global Credit Investment Group were reorganized into Wholesale Financial Services Group, which manages both domestic and international credit risks, and Retail Customer Group. (April 2002)

<Alliance Strategy>

- Chuo Mitsui Trust's participation into JTSB was officially announced. With total entrusted assets over 110 trillion yen, JTSB will further display its leadership in the securities processing business, with advanced know-how and the economies of scale. (January 2002)
- The establishment of Japan Pension Universe Comparison Services, a joint function, was agreed with Mizuho Trust and Banking, Trust and Custody Service Bank, Daiwa Bank, Chuo Mitsui Trust and Banking, and JTSB. Joint function aggregates large amount of information about performance of pension assets, and serves high quality analysis of the information. (November 2001)
- Preliminary talks considering co-development of new generation Transfer Agency Business system have started between the Bank and Japan Securities Agents.
- Human Resource Management Service & Consulting (HRMSC), a joint venture with Matsushita Electric Industrial Co., Kao Co., and All Nippon Airways Co., was established to undertake payroll and human resource management services. HRMSC aims to become the largest human resource management services company, which will generate profit with economies of scale, utilize web infrastructure, and manage than 500 thousand employees of customer corporations.

<New Business Development>

1) Retail Banking:

- Consulting services are enhanced for retail customers with optimal asset portfolio consultation services.
- With sophisticated credit monitoring system, new types of mortgage loans were introduced. Based on personal credit profile analysis, the Bank extends loans which could exceed the market value of collaterals.
- Advanced version of Customer Relationship Management has been launched to provide more specialized services to each individual client.

2) Services for Corporate Customers

- "Cross-Sell" business plan, which utilizes both banking and trust functions, has been enhanced. Through the plan, the Bank provides optimal solutions for customers' problems, introducing various banking and trust functions such as securitization of account receivable, real estate services and consultation for pension plan or for human resource management.
- The Bank also developed the simulation software for evaluating the impact of the Bank's proposal on customer's financial status.

- New type of Jointly-Operated Money Trust (JOMT), designed to invest in specified firms, has been developed. This JOMT works as a hybrid product between direct finance and indirect finance.

3) Trust and Custody business:

- The bank has been entrusted with a fair number of asset management contracts for newly introduced Defined Contribution pension system, and provided new mutual funds and saving deposits for those contracts.
- Trustee services for treasury stocks have started to support companies' financial strategies.
- Real Estate Group enhances its comprehensive custody and administration services for J-REITs.

(2) Progress of Restructuring

See Table "Restructuring Plan."

(3) Status of Problem Loans

Total amount of loans classified under the Financial Reconstruction Law (Bankrupt/Practically bankrupt, Doubtful, and Substandard) amounted to 689.0 billion yen for both Banking A/C and Trust A/C combined, increasing by 156.1 billion yen from March 2001. This increase is due to proactive write-off, reclassification of certain borrowers for possible future write-off and the classification rule change for Substandard Loans.

The final disposal ("off-balancing") of non-performing loans (Bankrupt/Practically bankrupt and Doubtful) resulted in 200.4 billion yen, consisting of 99.7 billion yen disposal during 1HFY2001, and 100.6 billion yen during 2HFY2001. With respect to remaining non-performing loans that occurred before September 2000 (278.6 billion yen) and required to be disposed of by the end of FY2002, more than 62% of them have already been disposed, indicating a steady pace of disposal. Meanwhile the Bank did not grant any voluntary debt forgiveness during FY2001.

Shown below are "Non-performing Loans Ratio" (Risk-managed loans/Total loans outstanding) and "Credit Costs Ratio" (Total credit costs/Total loans outstanding). Although the Substandard loans increased from March 2001 due to the increase in Doubtful and Substandard loans, the Credit Costs Ratio shows a steady downward trend, thanks to the adoption of a stricter classification standard.

	Mar. 2000	Mar. 2001	Mar. 2001
Non-Performing Loans Ratio	7.15%	4.99%	6.34%
Credit Costs Ratio	1.41%	1.38%	0.98%

The Bank will seek further soundness of our loan asset quality through final disposal and off-balancing of non-performing loans, as well as improvements in the ratios mentioned above.

(4) Credit Business Policy

In addition to the traditional corporate lending business by way of bilateral relationships with customers, the Bank is developing credit investment business by way of market approach such as investing in securitized and marketable credits. The Bank is also offering financial services related to the credit investments fully utilizing the know-how of our trust function.

The balance of domestic loans as of March 2002 increased by 115.5 billion yen and exceeded the annual projection which forecasted no increase or decrease.

(5) Dividends Payment

The Bank reduced the year-end annual dividends for common stock by 2.00 yen to 5.00 yen per share for FY2001, considering the financial performance including Net Loss. It plans to distribute 6.00 yen per share for common stock in FY2002 in lump-sum at the end of the fiscal year, in view of still challenging business environment. The distribution of interim dividends for common stock and preferred stock for FY2002 is not scheduled on account of the mark-to-market accounting adopted from FY2001 and the current poor outlook of the stock market.

3. Strategy for Improvement of Profitability to Achieve Net Income Projection on the Plan

(Failure to achieve the projection analyzed)

Net Loss of FY2001 was 42.2 billion yen, which is 72.2 billion yen less than Net Income scheduled on the Plan. It shows that actual Net Income was less than 70 percent of the attempted Net Income due to credit cost increase on account of proactive write-off of bad loans and devaluation of stocks.

(Return on Equity)

Adjusted Business Profit for FY2001 increased 10.2 billion yen (7.3%) reaching 150.2 billion yen, leading to a strong ROE of 20.43%, 2.26% higher than the projected number

18.17%.

(Action Plan for Profitability Improvement)

The Bank will implement the action plans listed below to achieve higher profitability. The Bank has already cut its overhead ratio about 21% since FY1996, but it will implement the following restructuring plan to reduce the SG&A by approximately 10 billion yen (8%) more than the projection on the Plan.

1. Reduction of Remuneration for Directors

The Bank has already reduced the level of salary for Directors 5 times since FY1992, while Directors have declined the annual bonus since FY1995. The Bank will carry out further reduction, and as a result, salary and annual remuneration for Directors will be reduced by 30% and by 50% at most respectively compared with those in FY1991.

2. Reduction of the number of employees

Although the number of employees has been decreased by 14% compared with that in FY 1997 due to more efficient operations, promotion of employment transfer, and hiring curbs, the Bank will reduce 450 employees more than the projection in the Plan by the end of FY2004.

3. Reduction of Personnel Expenses

The personnel expenses of FY2001 have already been reduced by 25% compared to those in FY1997 due to reductions in number of employees, restructuring of pension plan and retirement allowance plan, and abolishment of rent subsidy plan. However, the Bank will reduce more expenses through further bonus cut, restructuring human resource allocation, and review of employee welfare program.

4. Acceleration of Consolidation of Branches

The Bank's plan to close three domestic branches in FY2004 will be accelerated, and two of them are to be closed during FY2002.

5. Others

The Bank will reduce non-personnel expenses in various ways including downsizing of its IT system.

Result of Additional Cost Reduction Plans

	Action Plans	Expected Cumulative Result until FY2004
Reduction of Remuneration for Directors	- Further reduction in addition to 5 -time cut since FY1992	50 million yen
Reduction of the number of employees	- Reduction in 450 employees by FY2004	5,500 million yen
Reduction of Personnel Expenses	<ul style="list-style-type: none"> - Further reduction in bonus - Restructuring of human resource allocation - Review of employee welfare program 	
Acceleration of Consolidation of Branches	- Winding-up of 2 branches in FY2002	
Reduction of Welfare Provisions	<ul style="list-style-type: none"> - Termination of outsourcing of cafeteria - Reduction of meeting spaces 	3,700 million yen
Others	- Reduction of non-personnel expenses in various ways including downsizing of IT system	6,700 million yen
Total		16,000 million yen

Re-planning of the Plan based on this additional restructuring plan

		FY2001	FY2002	FY2003	FY2004

Salary and Bonus for Directors (millions of yen)	378	385	385	385

(The Projection of Retained Earnings and Possibility of Repayment of Public Funds)

Although the retained earnings have been reduced due to Net Loss in FY2001, the Bank will increase them through the additional restructuring plans listed above (The increase is expected to be 16 billion yen in total through FY2002 to FY2004). Furthermore, to keep its earnings, the Bank reduced dividends by 2.00 yen and 1.00 yen per share for FY2001 and FY2002 respectively, compared to 7.00 yen per share originally planned in the Plan. As a result, the retained earnings of the Bank are projected to increase to 299.5 billion yen by the end of FY2004, and the Bank will be able to have allowance to repay the public funds.

(in billions of yen)	FY2001 (Projection)	FY2001 (Actual)	FY2002 (Projection)	FY2003 (Projection)	FY2004 (Projection)	Cumulative Results since FY1998
Retained Earnings	190.8	145.5	169.5	227.4	299.5	179.5

The Bank is planning to repay public funds by the end of FY 2004 through strengthening its financial status. Specifically speaking, the Bank will repay 100 billion yen of perpetual subordinated bonds by March 2003, exercising on the call provision of the bonds. The Bank also intends to repay its preferred stock and redeemable preferred bonds, 100 billion yen each, at its earliest stage.

(* Remarks)

*1 Total loan amount in Banking A/C as well as Trust A/C with principal guarantee contracts (Loan Trust and Jointly-Operated Money Trust) has steadily increased. The amount of domestic loans outstanding has already exceeded our projected level for Mar. 2002.

*2 Negative 57.1 billion yen is recorded due to our net unrealized losses in Available-for-Sale Securities.

In addition, deferred tax assets increased by 46.3 billion yen mainly due to the impact of tax-effect accounting.

*3 NCD (non-negotiable certificate of deposits), for the purpose of short-term cash management, has increased.

Overall deposit amount (including Loan Trust) is maintained at the same level as the projection.

*4 Adjusted net business profit exceeded the projected amount by 10.2 billion yen, achieving 150.2 billion yen.

*5 Total Credit costs, consisting of credit costs for Banking A/C and Trust A/C, as well as the net transfer to general reserve, totaled 105.4 billion yen, 25.4 billion yen above our forecast of 80 billion yen.

*6 Net losses on securities resulted in 110.1 billion yen, mainly on account of the devaluation losses amounting to 108.9 billion yen.

A strict standard for devaluation, in which stocks with values at 50% or less of their costs are compulsorily subject to devaluation, and those with values more than 50% but less than 70% of their costs are subject to devaluation, depending on their possibility of price recovery.

*7 Interest spread exceeded the projected level by 0.11%. ROE also has exceeded the projected level by 2.26%

*(Notes 1 to 7): See Notes in non-consolidated basis for explanation.

<Explanation for the difference between March 2002 Actual and March 2002 Projection>

*1 BIS Capital Adequacy Ratio as of March 2002 was lower than the projected ratio by 0.68% mainly due to 57.0 billion yen of unrealized loss of Other Investment Securities and decline of retained earnings on account of Net Loss.

*2 Revaluation surplus on land has decreased due to the sale of the Bank's Tokyo Marunouchi Building through securitization.

*3 The Bank is planning to (re)finance with subordinated debt to keep sufficient BIS Capital Adequacy Ratio.

Breakdown of Adjusted Net Business Profits (New Breakdown by Business Group) (Note 1)

(Non-Consolidated basis)

(in billions of Yen)

	Mar. 2001 Actual	Mar. 2002 Projection	Mar. 2002 Actual	Remarks	Mar. 2003 Projection
